PROFESSIONAL EXPERIENCE

D&D Motor Systems, Inc. Syracuse, NY | Sep 2026 - Present
Software Engineer Intern

- Modernizing a legacy PHP/MySQL web platform serving 14K+ monthly active users and supporting $130K+ in monthly ecommerce revenue by refactoring application logic and improving database-driven workflows.
- Established Git-based version control and mapped interdependencies across 100+ legacy application files, improving code traceability and reducing risk during incremental updates.
- Used LLM-assisted code analysis to identify 4 authentication and security weaknesses in legacy PHP workflows, supporting a phased security modernization of the application.

Syracuse University (iConsult Collaborative) Syracuse, NY | May 2025 - Mar 2026
Software Engineer

- Developed NLP-based document processing pipelines using Python, LangChain, and LLM APIs for text classification and structured data extraction, reducing manual review effort by 30%.
- Implemented semantic search and vector retrieval using Python, text embeddings, and ChromaDB to index and retrieve information from 1,500+ document chunks, reducing information lookup time by 35%.
- Built multi-step AI workflows using Python and LangGraph with validation logic and conditional routing, automating 3 recurring processing tasks.

Accenture Mumbai, India | Sep 2023 - Jul 2024
Software Engineer

- Developed controller, service, and repository layer components for an enterprise Java application using Spring Boot, Spring MVC, JPA/Hibernate, and REST APIs, applying OOP principles to implement and maintain backend functionality released to a live client system.
- Improved REST API response time from 650ms to 250ms by using PostgreSQL EXPLAIN ANALYZE to identify inefficient query execution plans and implementing targeted database indexes across 4 slow-running SQL queries.
- Wrote 35+ unit tests using JUnit and Mockito for Spring Boot service and repository components, applying mocking and dependency isolation to achieve 75% code coverage and strengthen regression testing.
- Integrated a third-party REST API into an enterprise Java Spring Boot backend, implementing API communication, JSON request/response handling, and exception handling across 4 error scenarios using reusable integration components.

TECHNICAL SKILLS

Languages: Java, PHP, Python, JavaScript, TypeScript, SQL, HTML5, CSS3
Backend & APIs: Spring Boot, FastAPI, Django, Flask, Node.js, Express.js, REST APIs, GraphQL, Microservices
Frontend: React.js, Next.js, Redux, Material UI, Tailwind CSS
Databases: MySQL, PostgreSQL, MongoDB, DynamoDB, Redis, Oracle, Database Indexing, Query Optimization
Cloud & DevOps: AWS (EC2, S3, RDS, Lambda, ECS, SQS, CloudWatch), Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD, Git
AI & ML: LLMs, RAG, LangChain, LangGraph, FAISS, ChromaDB, Scikit-learn, PyTorch, Hugging Face
Testing & Security: JUnit, Mockito, Unit Testing, Integration Testing, JWT Authentication, Spring Security, Debugging
Software Engineering: OOP, Data Structures, Algorithms, Distributed Systems, Agile/Scrum, Root Cause Analysis
Certification: AWS Certified Solutions Architect - Associate

PROJECTS

ClearPath AI - US Immigration Assistant | Python, FastAPI, React, PostgreSQL, LangChain, FAISS, Scikit-learn, SHAP

- Developed a full-stack AI immigration assistant using React, FastAPI, and PostgreSQL, implementing a LangChain RAG pipeline with FAISS vector search over 4 official USCIS documents and a Random Forest model trained on 25,480 visa cases with 73.6% accuracy and SHAP explainability.

TenantLens - Renter Protection Platform | Java, Spring Boot, FastAPI, PostgreSQL, Spring Security, REST APIs

- Built a renter protection platform using Java Spring Boot, Python FastAPI, PostgreSQL, and JWT-secured REST APIs, integrating 3 independent services to detect fake reviews, score rent manipulation risk, and assess neighborhood safety.

EDUCATION

Syracuse University Syracuse, NY | Aug 2024 - May 2026
Master of Science in Computer Science (GPA: 3.46/4.0)

University of Mumbai Mumbai, India | Aug 2020 - May 2023
Bachelor of Engineering in Computer Engineering (GPA: 3.74/4.0)
